

TrainingRegister® Full Featured Version - Price List

Revised: June 19, 2008. Subject to Change without notice.

Price Summary:

Most companies install both the Administration and Web Modules. The Web Module can be installed at a later date. The purchase is either \$6000 if the Jet version is selected or \$12000 if the SQL Server version is selected. If the 20% discount is earned, then the actual cost is \$4800 or \$9600. See this document for details.

Charitable Non-Profits should inquire for special pricing on the Full Featured Version. A Basic Version License is available for budget conscious organizations. Startup cost can be as low as \$450. See separate price list for Basic Version.

Document Contents:

- Product Licenses for Use With Microsoft Jet Database
- Product Licenses for Use With Microsoft SQL Server Database
- Annual Support Package
- TrainingRegister® Upgrades
- 20% Potential Discount Earned for Prompt Payment

Product Licenses for Use With Microsoft Jet Database

Required Module:

Administration Module	\$6,000
-----------------------	---------

Optional Modules:

Web Module	Included
------------	----------

Optional Features:

Change Tracking	\$2,000
-----------------	---------

All above licenses are for using TrainingRegister® products with a single shared database. One license = one database plus the sample data which is provided for software training. No limits are placed on the number of seats, workstations or users but they must all share the same database.

The **Change Tracking** feature permits recording all database changes along with the date, time and user who made the change. The Change Tracking Feature is recommended for companies who are regulated by FDA.

Product Licenses for Use With Microsoft SQL Server Database

Required Module:

Administration Module	\$12,000
-----------------------	----------

Optional Modules:

Optional Features:

Change Tracking	\$2,000
-----------------	---------

All above licenses are for using TrainingRegister® products with a single shared database. One license = one database plus the sample data which is provided for software training. No limits are placed on the number of seats, workstations or users but they must all share the same database.

The **Change Tracking** feature permits recording all database changes along with the date, time and user who made the change. The Change Tracking Feature is recommended for companies who are regulated by FDA.

Annual Support Package

The Annual Support Package is included for the first year and is optional afterwards. Support is not available or sold on a per call basis. The Annual Support Package is designed to cover all upgrades and updates for products purchased and unlimited calls for 2 contact people. A TrainingRegister® license for use with a different database type is considered a different product.

The Annual Support Package is optional after the first year. It will be adjusted and prorated to a calendar year period and invoiced at 18.75% times the current price of products purchased. If discount is earned the net cost of support is 15%. To earn the discount, payment must be postmarked before existing support expires. Invoices are sent 60 days or more prior to expiration.

Note: The Annual Support Package never includes travel, travel expenses or time away from the office. This is occasionally requested and very seldom needed. We have assisted with many installations and trained many users over the telephone. The Annual Support Package includes unlimited telephone support for 2 contact people plus upgrades and updates. Support for additional staff is available.

TrainingRegister® Upgrades

TrainingRegister® upgrades and updates for the same database version are free if the Annual Support Package is current.

If an Annual Support Package is not current, an upgrade within the same database can be purchased for 30% of the current price. Purchase of an upgrade will reactivate the Annual Support Package for one year.

Full credit is applied when upgrading to a new database such as from Jet to SQL Server. The upgrade cost will be the current difference between the products plus an adjustment to the Annual Support Package.

20% Potential Discount Earned for Prompt Payment

A 20% discount may be earned by postmarking payment within 21 days of the invoice date. In the case of the Annual Support Package, a 20% discount may be earned if payment is postmarked prior to support expiration, which is usually December 31. Details are provided on the invoice.
